Panasonic's Photo Lithium batteries are not only lightweight and provide long lasting power, but they also offer a superior performance in low temperature conditions. They are best for shooting outdoors in cold weather and have an extra long shelf life. So they retain their power even when you are not using your camera. Suitable for most manufacturer's products including Canon, Olympus, Minolta, Leica, Pentax & Ricoh. Please refer to the Camera battery reference guide or check with your camera manufacturer as to which battery goes with your camera before purchasing
