

FUSES & CIRCUIT PROTECTION

PartNo.	ProductNo.	Manuf.	Description	Size(mm)	WorkingVolt.	Current(A)	BreakingCap.
10330	GOULD-TRS1-1/4R	Ferraz Sh.	"GOULD" Tri-onic Time Delay/ Class RK5 保險絲	21*127mm	600Vac	1.25A	200kA/600Vac

Ferraz(Gould)Shawmut-gG/aM系列圓形保險絲 Ferraz(Gould)Shawmut-gG/aMCylindricalFuse

Functions
Industrial fuse, gG curve (black marking) - standard NFEN60269-1 and 2-1. Protection of cables and electrical devices, apart from motors. Discrimination ensured between two fuses for which there is a margin of two current ratings (e.g. 160A and 100A). Breaking capacity: 20kA for 8.3x31.5-80-20kA for the other sizes at the rated voltage.

Applications
Protection at all levels of electrical distribution against overloads and short circuits. Mains switchboards, feeders switchboards, main cubicles.
