M2000HD FOR HDMI®

HIGH-DEFINITION MULTIMEDIA INTERFACE

MONSTER® • HYPER SPEED CABLE WITH ETHERNET

> 21 Gbps

Engineered Using Exclusive Technologies and Proprietary Materials, the Flagship M Series® Cable for HDMI™ Delivers the Highest Resolution and Sound, Now and in the Future

Get All the Bandwidth You'll Ever Need: Even for Massive 4Kx2K Screens!

4Kx2K Screens provide four times the resolution of 1080p TVs for dazzling displays on par with today's digital cinemas. This quadruples the need for speed and the elite Monster 2000HD delivers the full experience.

4K x 2K

Ultra High Definition Video

480/600 Hz

Faster Speed for Smooth Video Motion™

8-16 Bit Color

Smoothest Gradation of Color™

MONSTER 3D

Ready for 3D Displays

Dolby DTS-HD

Up to 7.1 Lossless Surround Sound

IN-WALL USE

All Lengths

HDMI ETHERNET

(ARC) Audio Return Channel

AUDIO RETURN

(HEC) HDMI Ethernet Channel

Enjoy Freedom from Obsolescence with Cable for Life Performance Guarantee

Even as advances in AV sources and displays demand ever more bandwidth, Monster makes it easy to buy only once and always stay ahead. So, if the components you purchase in the future ever surpass the performance of the 2000HD you buy today, Monster will upgrade your cable.

Reproduce All the Colors Your Camera and Camcorder can Capture on Your HDTV

Displaying movies and photos on your HDTV in all the living color your camera and camcorder can capture calls for today's higher bandwidth cables like the Monster 2000HD.

Support for Audio Return Channel: Better Sound, Fewer Cables

Transfer uncompressed surround sound from your HDTV with digital tuner to your AV receiver or surround sound controller. No extra audio cable needed.

2000HD for HDMI™ Lifetime Warranty

Our Monster Advanced cable for HDMI is covered by the Monsters Live Forever Full Lifetime Warranty, the best warranty in the business. See packaging for full details.

M2000HD for HDMI™ Performance Capabilities:

4K x 2K Resolution

Highest Definition Video

Enables home theater owners with advanced AV sources and displays to achieve the same high resolution picture definition as that of commercial digital cinemas.

8-16 Bit Color™**

Smoothest Gradation of Colors

Greater cable capacity to handle 16-bit color from advanced HD sources and displays that support this color depth yet compatible with all color depths from 8-bit to 16-bit. Enables more detailed gradations of individual colors for billions of colors realism.

480/640 Hz Display**

Faster Speed for Smooth Motion Video

Ideal for HD components with refresh rates of 480 Hz to 640 Hz yet compatible with slower refresh rates for the smoothest, most fluid video.

Monster 3D

Ready for 3D Displays

Newer 3D movies and games supply two video streams each at 1080p Full HD. With this doubling in bandwidth, the Monster M2000HD is ready to handle it all with capacity to spare.

Dolby® TrueHD and DTS-HD™

Lossless Surround Sound

Greater cable bandwidth for support of Dolby TrueHD and DTS-HD lossless surround sound, available on Blu-ray Disc™ and HD DVD™ movies.

V-Grip

For Superior Cable Connections

Many HDMI cables disconnect easily when moved during cleaning or when placed on an articulating mount. The exclusive Monster V-Grip connector increases retention force for a more reliable connection.

Support for HDMI Ethernet Channel: Networked Gear, Fewer Cables

HDMI Ethernet Channel

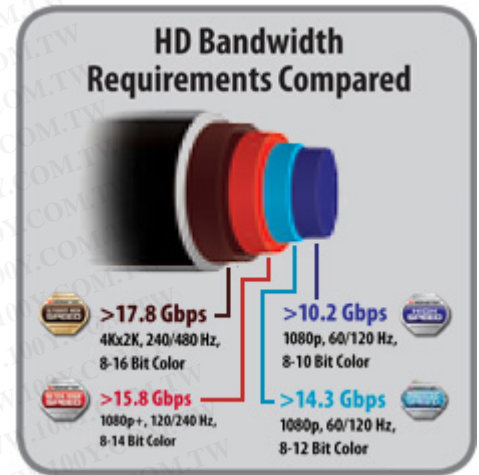

This all-in-one HDMI cable can share your Internet connection with multiple devices. No separate Ethernet cable needed.

Support for Audio Return Channel: Better Sound, Fewer Cables

Audio Return Channel

Transfer uncompressed surround sound from your HDTV with digital tuner to your AV receiver or surround sound controller. No extra audio cable needed.

HDMI is a data superhighway for digital video and audio. For the best highdefinition experience, use an HDMI cable that delivers all the picture and sound data your HD components require. Get all your HDMI questions answered at MonsterCable.com/HDMI.
