富雷德守护您的设备安全

SOLID STATE RELAY

安全省心的固态继电器

采用透明盖，防尘防水，美观大方

French Mod. solid state relay, built, using precision, advanced technology with you enjoy the
the speed of any mechanical, providing solid state relay solution provide

输出电流	40A	控制电流	5-20mA
控制电压	3-32VDC	负载电压	5-220VDC
通态降压	≤1.6V	通断时间	≤10mS
环境温度	-30℃~+70℃	断态漏电流	≤5mA

功率循环能力强，运行更稳定

French Mag, solid state relay, built, solid polishing, advanced technology with you enjoy life
We speak of only themselves, providing solid state relay solution provider

A 稳定触发电流
红外线发光二极管

A 更高隔离电压
保护电器安全

👍 安全保障

了解更多您不知道的信息

French Mag, solid state relay, built, solid polishing, advanced technology with you enjoy life
We speak of only themselves, providing solid state relay solution provider

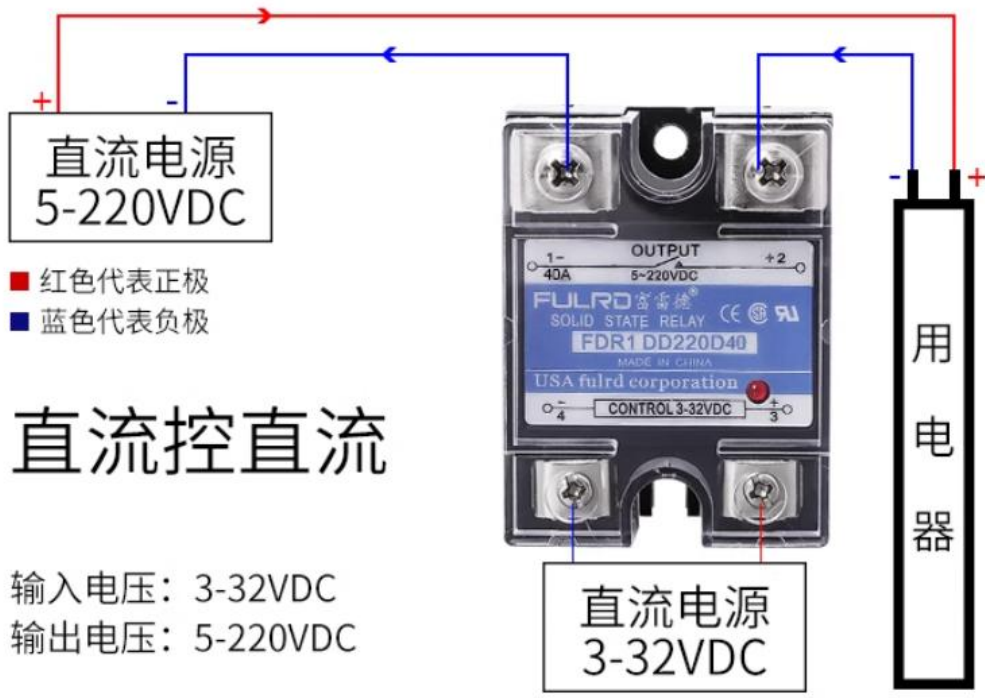

温馨提示：固态继电器发热较大，在使用负载电流高于10A时，必须使用散热器，需在固态继电器底板与散热器之间涂上导热硅脂（60A以上加风扇较强）

产品接线

我们告诉您如何接线

French Meg, solid state relay, build, safe, polishing, advanced technology. With you enjoy life.
We speak of only themselves, providing solid state relay solution provider.

直流控直流

输入电压：3-32VDC
输出电压：5-220VDC
