March 2011

FGY75N60SMD 600V, 75A Field Stop IGBT

Features

- High Current Capability
- Low Saturation Voltage: V_{CE(sat)} = 1.9V @ I_C = 75A
- High Input Impedance
- Fast Switching
- RoHS Compliant

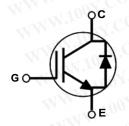

General Description

Using Novel Field Stop IGBT Technology, Fairchild's new series of Field Stop IGBTs offer the optimum performance for Solar Inverter, UPS, Welder, SMPS and PFC applications where low conduction and switching losses are essential.

Application

• Solar Inverter, UPS, Welder, SMPS, PFC

Absolute Maximum Ratings

Symbol	Description		Ratings	Units
V _{CES}	Collector to Emitter Voltage		600	007. V
V _{GES}	Gate to Emitter Voltage	MMM. OUT COM	± 20	100 IV
lc WWY	Collector Current	@ T _C = 25°C	150	A CO
	Collector Current	$@ T_C = 100^{\circ}C$	75	A (
I _{CM (1)}	Pulsed Collector Current @ $T_C = 25^{\circ}C$		225	10A
I _F	Diode Forward Current	$@ T_C = 25^{\circ}C$	75	A
	Diode Forward Current	$@ T_C = 100^{\circ}C$	50	A
I _{FM (1)}	Pulsed Diode Maximum Forward Current		225	A
P _D	Maximum Power Dissipation	$@ T_C = 25^{\circ}C$	750	W
ט י	Maximum Power Dissipation	$@ T_C = 100^{\circ}C$	375	W
T _J	Operating Junction Temperature		-55 to +175	°C
T _{stg}	Storage Temperature Range	N MMN.	-55 to +175	°C
T _L	Maximum Lead Temp. for soldering Purposes, 1/8" from case for 5 seconds		300	°C

Notes

1: Repetitive rating: Pulse width limited by max. junction temperature.

Thermal Characteristics

Symbol	Parameter	Тур.	Max.	Units
$R_{\theta JC}(IGBT)$	Thermal Resistance, Junction to Case	N. S. CON	0.2	°C/W
$R_{\theta JC}(Diode)$	Thermal Resistance, Junction to Case	M. To. COM	0.7	°C/W
$R_{\theta JA}$	Thermal Resistance, Junction to Ambient	100 - 001	40	°C/W

Package Marking and Ordering Information

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS. SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

LIFE SUPPORT POLICY
FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

As used here in:

- Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user
- A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness

ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our external website, www.Fairchildsemi.com, under Sales Support.

WWW.Fallchlidserin.com, under Sales Support.

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufactures of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed application, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from Fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handing and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address and warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.

PRODUCT STATUS DEFINITIONS **Definition of Terms**

Datasheet Identification	Product Status	Definition			
Advance Information	Formative / In Design	Datasheet contains the design specifications for product development. Specifications may change in any manner without notice.			
Preliminary	First Production	Datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design.			
No Identification Needed	Full Production	Datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve the design.			
Obsolete	Not In Production	Datasheet contains specifications on a product that is discontinued by Fairchild Semiconductor. The datasheet is for reference information only.
