RSR025N03

## **Transistors**

# 4V Drive Nch MOS FET RSR025N03

#### Structure

Silicon N-channel MOS FET

#### Features

- 1) Low on-resistance.
- 2) Built-in G-S Protection Diode.
- 3) Small Surface Mount Package (TSMT3)

#### Application

Power switching, DC / DC converter.

#### External dimensions (Unit : mm)

## Packaging specifications

	Package	Taping
Type	Code	TL
	Basic ordering unit (pieces)	3000
RSR025N03	0.11	

## ● Absolute maximum ratings (Ta=25°C)

Parameter	Symbol	Limits	Unit V	
Drain-source voltage		Voss		
Gate-source voltage		Vgss	20	V
Drain current	Continuous	ID	±2.5	Α
	Pulsed	I <sub>DP</sub> *1	±10	Α
Source current (Body diode)	Continuous	ls	0.8	Α
	Pulsed	Isp*1	3.2	Α
Total power dissipation	P <sub>D</sub> *2	1	W	
Channel temperature	Tch	150	°C	
Storage temperature		Tstg	-55 to 150	°C
	4 % (%)			

<sup>\*1</sup> Pw≤100μs, Duty cycle≤2%

### Equivalent circuit

\*A protection diode is included between the gate and the source terminals to protect the diode against static electricity when the product is in use. Use the protection circuit when the fixed voltages are exceeded.

# Thermal resistance

Parameter	Symbol	Limits	Unit	
Channel to ambient	Rth (ch-a)*	125	°C/W	

<sup>\*2</sup> Mounted on a ceramic board.

XWW.100

#### **Notes**

- No technical content pages of this document may be reproduced in any form or transmitted by any
  means without prior permission of ROHM CO.,LTD.
- The contents described herein are subject to change without notice. The specifications for the
  product described in this document are for reference only. Upon actual use, therefore, please request
  that specifications to be separately delivered.
- Application circuit diagrams and circuit constants contained herein are shown as examples of standard
  use and operation. Please pay careful attention to the peripheral conditions when designing circuits
  and deciding upon circuit constants in the set.
- Any data, including, but not limited to application circuit diagrams information, described herein are intended only as illustrations of such devices and not as the specifications for such devices. ROHM CO.,LTD. disclaims any warranty that any use of such devices shall be free from infringement of any third party's intellectual property rights or other proprietary rights, and further, assumes no liability of whatsoever nature in the event of any such infringement, or arising from or connected with or related to the use of such devices.
- Upon the sale of any such devices, other than for buyer's right to use such devices itself, resell or
  otherwise dispose of the same, no express or implied right or license to practice or commercially
  exploit any intellectual property rights or other proprietary rights owned or controlled by
- ROHM CO., LTD. is granted to any such buyer.
- Products listed in this document are no antiradiation design.

The products listed in this document are designed to be used with ordinary electronic equipment or devices (such as audio visual equipment, office-automation equipment, communications devices, electrical appliances and electronic toys).

Should you intend to use these products with equipment or devices which require an extremely high level of reliability and the malfunction of with would directly endanger human life (such as medical instruments, transportation equipment, aerospace machinery, nuclear-reactor controllers, fuel controllers and other safety devices), please be sure to consult with our sales representative in advance.

About Export Control Order in Japan

Products described herein are the objects of controlled goods in Annex 1 (Item 16) of Export Trade Control Order in Japan.

In case of export from Japan, please confirm if it applies to "objective" criteria or an "informed" (by MITI clause) on the basis of "catch all controls for Non-Proliferation of Weapons of Mass Destruction.
