TIP35CP TIP36CP

Complementary power transistors

Features

W.100Y.COM.TW

- Low collector-emitter saturation voltage
- Complementary NPN-PNP transistors

Applications

- General purpose
- Audio amplifier

Description

The devices are manufactured in planar technology with "base island" layout. The resulting transistors show exceptional high gain performance coupled with very low saturation voltage. WWW.100Y.CO WWW.100Y.COM.TW

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a Lead-free second level interconnect . The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. WWW.100Y.COM ECOPACK specifications are available at : www.st.com WWW.100Y.COM.TW
