

## STP16NF06 STP16NF06FP

N-channel 60V - 0.08Ω - 16A - TO-220/TO-220FP STripFET™ II Power MOSFET

## **General features**

Туре	V <sub>DSS</sub>	R <sub>DS(on)</sub>	I <sub>D</sub>
STP16NF06	60V	<0.1Ω	16A
STP16NF06FP	60V	<0.1Ω	11A

- Exceptional dv/dt capability
- Low gate charge at 100°C
- Application oriented characterization

## **Description**

This Power MOSFET is the latest development of STMicroelectronics unique "Single Feature Size<sup>TM</sup>" strip-based process. The resulting transistor shows extremely high packing density for low on-resistance, rugged avalanche characteristics and less critical alignment steps therefore a remarkable manufacturing reproducibility.

## **Applications**

Switching application

### Internal schematic diagram

#### Package mechanical data 4

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a Lead-free second level interconnect. The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at: www.st.com MMM.100X.COM.
