#### **DATASHEET - M22-LED-R**

WWW.100Y.COM.TW LED element, red, front mount, 12-30VAC/DC

M22-LED-R Part no. Catalog No. 216558 **Alternate Catalog** M22-LED-RQ

No.

**EL-Nummer** (Norway)

4355368

Screw terminals

#### Notes

Connection technique

For indicator lights, illuminated pushbutton actuators, and illuminated selector switch actuators, the following applies: WWW.100Y.COM.T

M22...-R only in combination with M22-LED...-R

M22...-G only in combination with M22-LED...-G

M22...-W only in combination with M22-LED...-W

M22...-Y only in combination with M22-LED...-W

M22...-B in combination with M22-LED...-W or M22-LED...-B

| Operating ambient temperature min.   |                   | °C   | -25 COM  |
| Operating ambient temperature max.   |                   | °C   | 70 TIWW. LOV. COM.   |
| IEC/EN 61439 design verification   |                   |  |  |
| 10.2 Strength of materials and parts   |                   |  |  |
| 10.2.2 Corrosion resistance  |                   |  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |  | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |  | Meets the product standard's requirements.   |
| $10.2.3.3\mbox{Verification}$ of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |  | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |  | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |                   |  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |                   |  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |                   |  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   | Does not apply, since the entire switchgear needs to be evaluated. |  |
| 10.4 Clearances and creepage distances   |                   | Meets the product standard's requirements.                         |  |
| 10.5 Protection against electric shock   |                   |  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |                   |  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |                   |  | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |  | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |  |  |
| 10.9.2 Power-frequency electric strength   |                   |  | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |  | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   | Is the panel builder's responsibility.                             |  |
| 10.10 Temperature rise   |                   |  | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |                   |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  10.13 Mechanical function   |                   |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  |                   |  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |
|  |                   |  |  |
