FEATURES

● High Performance

● Non-volatile Flash Memory

The DOM is implemented by using NAND type flash memory, which is a high

density, non-volatile read/write device. Flash data retention is guaranteed for

at least 10 years, with no battery or other power source required.

● 100% True Mode IDE HDD Compatible

● Broad Operating System and Processors Supports

● Capacities 4~1024Mbytes

● Low Power Consumption

● Robust Error Correction

● High Reliability
