Gas soldering irons
GP Series No cord or batteries
 enables use anywhere.

**PORTASOL PROFESSIONAL
 GAS HEATED TOOL SET**

GP-201

(Tool, cap, set of 4 tips, exclusive case, cleaner and stand)

FEATURES

- It is a compact gas heated tool that can be used in locations where electricity is not available.
- Perfect for many applications from hobby to industrial.
- The following have been included : hot knife, blow torch, hot blow and long life soldering tip assuring a wide range of applications can be done.
- Its quick heating allows soldering to be done in approximately 30 seconds after ignition. The temperature adjustment knob allows the heating volume to be adjusted equal to a power of from 10 to 60W.
- Refilling is easy using any lighter gas on the market.

Replacement Tips

Long life tip

Hot air temperature	GP-201SMT :500°C
	GP-201HT :330°C
Blow-torch temperature	GP-201BT :1300°C

Tips marked with a * may require a lead time before shipping. Please contact your nearest **goot** distributor for lead time confirmation.
