Features

Choose the system that best fits your needs! The portable HAKKO474 vacuum pump type or the economical HAKKO475 air compressor type.

- Both models are constructed of static dissipative materials using an ESD design which prevents damage to circuit boards and parts caused by electro-static discharge.
- Heating element and motor features zero-cross switching in order to prevent electrical surges.
- An insulated transformer completely isolated the output circuit from the power input circuit.

Packing List

Model No.	474	475
Power Consumption	100W	70W

Output Voltage	HAKKO 474	HAKKO 475
Output Voltage	AC 24V	
Vacuum Generator	Vacuum Pump, Double Cylinder Type	Ejector Type
Vacuum Pressure(Max.)	80kPa(600mmHg)	93kPa(700mmHg)
