## **Description/ Features**

The 10BQ030PbF surface-mount Schottky rectifier has been designed for applications requiring low forward drop and small foot prints on PC boards. Typical applications are in disk drives, switching power supplies, converters, free-wheeling diodes, battery charging, and reverse battery protection.

- Small foot print, surface mountable
- Very low forward voltage drop
- · High frequency operation
- · Guard ring for enhanced ruggedness and long term reliability
- Lead-Free ("PbF" suffix)
