

# SMG50 KlipChip Adapter

- Access to 0.050 in. Centers PLCC, SOIC and Other Packages

## APPLICATIONS

- Research and Design
- Manufacturing Test of SMD Circuitry
- Servicing of SMD Circuitry
- Prototype Debug and Design

SMT KlipChip Adapter.

## Surface Mount Device Probing and Interconnects

The increasing use of surface mount technology (SMT) brings many benefits to electronic circuit board (ECB) design and manufacture. Among these are increased circuit density, increased product reliability and lower assembly costs. Troubleshooting and device interconnection, however, have become more difficult due to decreased device size, tighter lead spacing and increased ECB densities. Tektronix' offering of the following SMT probing and interconnect devices meets these demanding requirements.
